

Model: **BELGRADO**

Code: **IN226BC**

Colour: **BLACK CARBON**

DESCRIPTION

Belgrado work trouser is made of a resistant mechanical stretch poly-cotton fabric, which offers the flexibility necessary to move freely, while maintaining exceptional resistance. Washable at 60°, it guarantees easy maintenance and hygiene, a fundamental aspect in any working environment.

Designed with everyday practicality in mind, this U-Power work trouser is equipped with two large multifunctional side pockets, two front pockets and one back pocket, providing ample space for tools and personal items. The elastic waist and the accentuated back yoke ensure optimal protection for the lumbar area, supporting the back during activities that require prolonged effort.

The pre-shaped knees of the Belgrado trouser are designed to adapt to the natural curve of the legs, ensuring superior comfort and greater ease of movement. Sturdiness is ensured by the triple stitching, while the central zip closure and the scratch-resistant rubberised button ensure practicality and durability over time. The rear tubular loop is a convenient addition for those who need to carry additional badges or gear.

Available in three colours: Black Carbon, Westlake Blue, Grey Iron.

Work trousers ideal for transport and logistics, service and industry, gardening and agriculture.

The product is also available in bundles of 20 (code CY226).
