

Model: **HULL**

Code: **WEY366BC**

Colour: **BLACK CARBON**

DESCRIPTION

U-Power work sweatshirt with a zipper ideal for professionals seeking practicality without sacrificing style. The technical fabric with a smooth outer surface ensures protection and durability, while the warm, soft interior offers a lasting sense of comfort. Thanks to its high breathability and quick-drying attributes, it suits dynamic work environments where reliable, high-performance clothing is a must.

An ergonomic design with raglan sleeves provides complete freedom of movement, and the full-zip closure with a standing collar allows you to adapt the sweatshirt to changing weather conditions. Contrast-colored zipper teeth add a distinctive style accent. Two spacious front pockets at the bottom and one vertical chest pocket in technical fabric, all with zipper closures, provide secure storage for small items and work tools.

Technical and design details like contrasting fabric reinforcements on the sides and elbows increase the sweatshirt's durability. Elasticated cuffs and hem provide a snug fit, ensuring maximum comfort during any activity. Reflective accents - including the "lion's head" rubber label logo on the chest pocket and the U-Power print under the collar - improve visibility, helping keep you safe in dimly lit environments.

Perfect for wearing alone or layered under a jacket, this full-zip sweatshirt is a versatile, reliable choice for professionals who prioritise quality, functionality, and a modern design in their work attire.
