

Model: **SOFIA**

Code: **IN228BC**

Colour: **BLACK CARBON**

DESCRIPTION

Sofia is the U-Power work jacket designed to offer excellent functionality and strength. Made of mechanical stretch fabric, this jacket guarantees durability and is easy to care for. It can be washed at 60°C, a fundamental aspect in keeping workwear clean and hygienic.

Winter work jacket featuring a breast pocket with Velcro fastening and two front zipped pockets, ideal for storing and providing easy access to tools and personal items. The jacket also has a handy plastic badge holder ring. The cuffs feature snap-button adjustment for an excellent individual fit, ensuring protection in all weather conditions.

The central zipped closure and shaped, elasticated bottom add the finishing touches to the design.

The Sofia work jacket comes in three elegant colours: Black Carbon, Westlake Blue and Grey Iron, each one designed to adapt to different styles and preferences.

Designed to meet the requirements of a variety of sections,, this jacket is particularly suited to the transport and logistics, building and construction, service and industry sectors.

The work vest is also available in bundles of 10 (code CY228).
